Modernización urbana en América Latina: de las grandes aldeas a las metrópolis masificadas (Spanish Edition) Arturo Almadoz

Con foco en la historia cultural urbana de América Latina, este libro concibe lo urbano como un generador de imaginarios, así como un «lugar de producción de significados». El texto nos presenta una revisión de las ciudades latinoamericanas y sus procesos de transformación urbanística y modernización cultural.

La perspectiva que nos entrega el autor incorpora las estructuras habitacionales, la distribución de los espacios urbanos, la concentración de los barrios, suburbios y periferias —entre otras cosas—, como un foco de análisis para el entendimiento de las ciudades de América Latina y su evolución desde la concepción de aldea hasta la de metrópoli masificada.

Es así como, en las descripciones que nos facilita el texto, se concibe a la ciudad como un espacio de reunión, identidad e historia. También, como una productora de discursos de representación de un territorio y de su eje cultural.
