Susan Milner

Comparative Employment Relations: France, Germany and Britain Susan Milner

Comparative Employment Relations explores the interconnectedness of contemporary European economies by examining employment relations in three key European countries: France, Germany and Britain. It offers an in-depth comparative analysis of the issues that stand at the heart of employment relations: pay and working conditions and how these are determined, power relations between capital and labour, how employment should be regulated, and what role the state plays.

Key benefits:

- Written in an engaging and accessible style
- Offers a unique systematic comparison between the three countries
- Handles complex theoretical concepts in a straightforward and innovative way

This book fills the gap between single country studies of employment relations and more broad-brush multi-country approaches, making it ideal for both undergraduate and postgraduate students studying employment and industrial relations.
