Brain Injury Treatment: Theories and Practices (Studies on Neuropsychology, Neurology and Cognition)

Jose Leon-Carrion, Klaus R. H. von Wild, George A. Zitnay

Brain Injury Treatment: Theories and Practices is a thorough and wide-ranging account of the rehabilitation of brain injury.

Written from an international perspective, this book presents a detailed discussion of the basic science of brain injury. It explains the treatments used in brain injury rehabilitation and covers new methods of rehabilitation, including complementary medicine theories. It contains a wealth of information on different neurosurgical and neuropsychological treatments. It also includes a comprehensive reference to the theories underlying rehabilitation practices and chapters on community reentry and family dynamics following brain injury.

It will be an invaluable tool to students from psychology, medicine, physical and occupational therapy studying the treatment and aftercare of people with brain injury.
