Policy Issues in the Evolving International Monetary System (Occasional Paper (Intl Monetary Fund))

Mark P. Taylor, Peter Isard, Morris Goldstein, Paul R. Masson

How can international monetary stability be promoted? This study looks at ways to bolster economic policies and coordination among the industrial countries serving as nominal anchors for the world economy. It also assesses the operation of monetary unions and common currency areas. The authors conclude that problems with the world monetary system reflect weaknesses outside the exchange rate arena, and that exchange rate commitments must be tailored to individual country characteristics.
