Theory, Practice, and Community Development (Community Development Research and Practice Series)

For many scholars, the study of community and community development is at a crossroads. Previously dynamic theories appear not to have kept pace with the major social changes of our day. Given our constantly shifting social reality we need new ideas and research that pushes the boundaries of our extant community theories. *Theory, Practice, and Community Development* stretches the traditional boundaries and applications of well-established community development theory, and establishes new theoretical approaches rooted in new disciplines and new perspectives on community development.

Expanded from a special issue of the journal *Community Development*, *Theory, Practice, and Community Development* collects previously published and widely cited essays, as well as new theoretical and empirical research in community development. Compiled by the editors of *Community Development*, the essays feature topics as varied as placemaking, democratic theory and rural organizing. *Theory, Practice, and Community Development* is vital for scholars and practitioners coming to grips with the rapidly changing definition of community.
