## Pathy's Principles and Practice of Geriatric Medicine, 2 Volumes

This new edition of the comprehensive and renowned textbook *Principles and Practice of Geriatric Medicine* offers a fully revised and updated review of geriatric medicine. It covers the full spectrum of the subject, features 41 new chapters, and provides up-to-date, evidence-based, and practical information about the varied medical problems of ageing citizens.

The three editors, from UK, USA and France, have ensured that updated chapters provide a global perspective of geriatric medicine, as well as reflect the changes in treatment options and medical conditions which have emerged since publication of the 4<sup>th</sup> edition in 2006. The book includes expanded sections on acute stroke, dementia, cardiovascular disease, and respiratory diseases, and features a new section on end-of-life care.

In the tradition of previous editions, this all-encompassing text continues to be a must-have text for all clinicians who deal with older people, particularly geriatric medical specialists, gerontologists, researchers, and general practitioners.

### Praise for the 4<sup>th</sup> edition:

"...an excellent reference for learners at all clinical and preclinical levels and a useful contribution to the geriatric medical literature."

—*Journal of the American Medical Association*, November 2006

**5th edition** selected for 2012 Edition of Doody's Core Titles™
