If you are a BI developer, consultant, or architect who wishes to learn how to use SSRS and Power View, and want to understand the best use for each tool, then this book will get you up and running quickly. No prior experience is required with either tool!

What You Will Learn

- Get to grips with reporting scenarios that describe the best reporting tool to use
- Follow the step-by-step exercises to build a report in SSRS and Power View
- Visualize and interact with data in bold new ways with Power View
- Generate reports quickly using intuitive interfaces
- Create self-service reports with a wide variety of formats

In Detail

Reporting with Microsoft SQL Server 2012 will cover all the features of SSRS and Power View and will provide a step-by-step lab activity to help you develop reports very quickly.

Starting with the difference between standard and self- service reporting, this book covers the main features and functionality offered in SQL Server Reporting Services 2012 including a breakdown of the report components, development experience, extensibility, and security. You will also learn to set up and use Power View within Excel and SharePoint and connect to a tabular model as well as a multidimensional model. The book provides real-life reporting scenarios that help to clarify when those scenarios are discussing standard reporting, in which case SSRS is the best choice, and when they are discussing self-service reporting, in which case Power View is the best choice.

This book will have you creating reports in SSRS and Power View in no time!

From reader reviews:

Nancy Hedrick:

Spent a free time for you to be fun activity to try and do! A lot of people spent their spare time with their family, or their very own friends. Usually they undertaking activity like watching television, gonna beach, or picnic inside park. They actually doing same thing every week. Do you feel it? Do you need to something different to fill your own personal free time/ holiday? Could be reading a book may be option to fill your free time/ holiday. The first thing that you will ask may be what kinds of publication that you should read. If you want to attempt look for book, may be the e-book untitled Reporting with Microsoft SQL Server 2012 (Professional Experience Distilled) can be good book to read. May be it could be best activity to you.

Lisa Maurer:

Your reading sixth sense will not betray a person, why because this Reporting with Microsoft SQL Server 2012 (Professional Experience Distilled) reserve written by well-known writer who knows well how to make book that can be understand by anyone who all read the book. Written within good manner for you, dripping every ideas and writing skill only for eliminate your own hunger then you still skepticism Reporting with Microsoft SQL Server 2012 (Professional Experience Distilled) as good book not merely by the cover but also from the content. This is one e-book that can break don't evaluate book by its handle, so do you still needing yet another sixth sense to pick that!? Oh come on your reading sixth sense already told you so why you have to listening to yet another sixth sense.

Ralph Capra:

This Reporting with Microsoft SQL Server 2012 (Professional Experience Distilled) is brand new way for you who has fascination to look for some information since it relief your hunger of information. Getting deeper you into it getting knowledge more you know or you who still having tiny amount of digest in reading this Reporting with Microsoft SQL Server 2012 (Professional Experience Distilled) can be the light food in your case because the information inside this book is easy to get by simply anyone. These books build itself in the form and that is reachable by anyone, that's why I mean in the e-book form. People who think that in reserve form make them feel drowsy even dizzy this e-book is the answer. So there is not any in reading a reserve especially this one. You can find what you are looking for. It should be here for you actually. So , don't miss the item! Just read this e-book type for your better life and also knowledge.

Samuel Brooks:

As a scholar exactly feel bored for you to reading. If their teacher inquired them to go to the library in order to make summary for some publication, they are complained. Just tiny students that has reading's heart and soul or real their leisure activity. They just do what the instructor want, like asked to go to the library. They go to there but nothing reading significantly. Any students feel that studying is not important, boring in addition to can't see colorful pics on there. Yeah, it is to be complicated. Book is very important for you. As

we know that on this age, many ways to get whatever we want. Likewise word says, many ways to reach Chinese's country. Therefore , this Reporting with Microsoft SQL Server 2012 (Professional Experience Distilled) can make you feel more interested to read.
