#### A complete road map to creating successful technical presentations

Planning a technical presentation can be tricky. Does the audience know your subject area? Will you need to translate concepts into terms they understand? What sort of visuals should you use? Will this set of bullets truly convey the information? What will your slides communicate to future users? Questions like these and countless others can overwhelm even the most savvy technical professionals.

This full-color, highly visual work addresses the unique needs of technical communicators looking to break free of the bulleted slide paradigm. For those seeking to improve their presentations, the authors provide guidance on how to plan, organize, develop, and archive technical presentations. Drawing upon the latest research in cognitive science as well as years of experience teaching seasoned technical professionals, the authors cover a myriad of issues involved in the design of presentations, clearly explaining how to create slide decks that communicate critical technical information. Key features include:

- Innovative methods for archiving and documenting work through slides in the technical workplace
- Guidance on how to tailor presentations to diverse audiences, technical and nontechnical alike
- A plethora of color slides and visual examples illustrating various strategies and best practices
- Links to additional resources as well as slide examples to inspire on-the-job changes in presentation practices

*Slide Rules* is a first-rate guide for practicing engineers, scientists, and technical specialists as well as anyone wishing to develop useful, engaging, and informative technical presentations in order to become an expert communicator. #### From reader reviews:

#### **Maureen Perdue:**

Reading a book tends to be new life style in this era globalization. With studying you can get a lot of information that could give you benefit in your life. Along with book everyone in this world can certainly share their idea. Textbooks can also inspire a lot of people. Many author can inspire their reader with their story as well as their experience. Not only situation that share in the textbooks. But also they write about the data about something that you need example of this. How to get the good score toefl, or how to teach your young ones, there are many kinds of book which exist now. The authors these days always try to improve their talent in writing, they also doing some research before they write to their book. One of them is this Slide Rules: Design, Build, and Archive Presentations in the Engineering and Technical Fields (IEEE PCS Professional Engineering Communication Series).

#### **Gerald Toups:**

A lot of people always spent their own free time to vacation or maybe go to the outside with them loved ones or their friend. Did you know? Many a lot of people spent they will free time just watching TV, or maybe playing video games all day long. If you would like try to find a new activity this is look different you can read some sort of book. It is really fun for you. If you enjoy the book you read you can spent all day every day to reading a book. The book Slide Rules: Design, Build, and Archive Presentations in the Engineering and Technical Fields (IEEE PCS Professional Engineering Communication Series) it doesn't matter what good to read. There are a lot of folks that recommended this book. They were enjoying reading this book. In the event you did not have enough space bringing this book you can buy the particular e-book. You can m0ore very easily to read this book out of your smart phone. The price is not too expensive but this book has high quality.

#### **David Veal:**

Beside this kind of Slide Rules: Design, Build, and Archive Presentations in the Engineering and Technical Fields (IEEE PCS Professional Engineering Communication Series) in your phone, it can give you a way to get more close to the new knowledge or information. The information and the knowledge you will got here is fresh from oven so don't possibly be worry if you feel like an older people live in narrow community. It is good thing to have Slide Rules: Design, Build, and Archive Presentations in the Engineering and Technical Fields (IEEE PCS Professional Engineering Communication Series) because this book offers to you readable information. Do you oftentimes have book but you would not get what it's about. Oh come on, that will not end up to happen if you have this inside your hand. The Enjoyable set up here cannot be questionable, just like treasuring beautiful island. Use you still want to miss this? Find this book along with read it from today!

#### **Allen Ellis:**

Reading a book make you to get more knowledge from that. You can take knowledge and information from the book. Book is published or printed or illustrated from each source that will filled update of news. With this modern era like right now, many ways to get information are available for you actually. From media social like newspaper, magazines, science e-book, encyclopedia, reference book, fresh and comic. You can add your understanding by that book. Ready to spend your spare time to open your book? Or just in search of the Slide Rules: Design, Build, and Archive Presentations in the Engineering and Technical Fields (IEEE PCS Professional Engineering Communication Series) when you needed it?
