## **The Clinician's Handbook: Integrated Diagnostics, Assessment, and Intervention in Adult and Adolescent Psychopathology** Robert G. Meyer, Christopher M. Weaver

This extremely versatile handbook, written for students and practitioners, taps current treatment and assessment research to provide up-to-date coverage of emotional and behavioral disorders, major DSM-IV-TR diagnostic categories, MMPI-2 correlates and other test-response patterns, and treatment options. Diagnostic concepts and observations are linked with specific assessment and test data for diagnostic categories; this is then integrated with recommended intervention procedures. In a single volume, the authors have synthesized an abundance of information and presented it in a manageable and accessible manner. Their extensive experience in clinical and forensic psychology—teaching, conducting research, interacting with clients, working in the criminal justice system—highly qualifies them to know and present the kind of practical information students and practitioners need.
