Ecosystems in a Human-Modified Landscape: A European Perspective: 44 (Advances in Ecological Research) Guy Woodward

Advances in Ecological Research is one of the most successful series in the highly competitive field of ecology. Each volume publishes topical and important reviews, interpreting ecology as widely as in the past, to include all material that contributes to our understanding of the field. Topics in this invaluable series include the physiology, populations, and communities of plants and animals, as well as landscape and ecosystem ecology.

Updates and informs the reader on the latest research findings

Written by leading experts in the field

Highlights areas for future investigation
