The Miocene Arrow (Greatwinter Trilogy) Sean McMullen

Sean McMullen is one of the hottest new writers working today. He is a three-time winner of the Ditmar Award in his native Australia, and has also won that country's Aurealis Award. His last novel, *Souls in the Great Machine*, began the steampunk saga of Greatwinter and garnered him much critical acclaim. *The Miocene Arrow* continues McMullen's story of a far-future Earth flung back to its pre-technological roots.

Ultra-light American diesel gunwings can hold their own against Australian human-powered battle computers and a tram-based net. But they are helpless against the ultimate doomsday machine: The Miocene Arrow.

In a fortieth-century America of ancient kingdoms with opulent courts, hereditary engineering guilds, and rigid class distinction in warfare, a centuries-old balance of power is shattered by a few dozen Australian infiltrators. Against a rich backdrop of war, chivalry, conspiracy, and a diesel-powered arms race, a dangerous secret alliance has formed. Now the unlikely trio of an air lord, an abbess, and a fugitive are joined together in a desperate race against time to stop the Miocene Arrow from being launched--and save the world in the process.
