Evidence of Christianity William Paley

William Paley's classic brings depth to the history of intelligent design arguments. The contrivance of the eye, the ear, and numerous other anatomical features throughout the natural world are presented as arguments for God's presence and concern. While there are distinctive differences between Paley's argument and those used today by intelligent design theorists and creationists, it remains a fascinating glimpse of the nineteenth-century's debate over the roles of religion and science.
