The Lancelot-Grail Cycle: Text and Transformations

The Lancelot-Grail Cycle: Text and Transformations

Composed in Old French between about 1220 and 1240, the Lancelot-Grail Cycle is a group of five prose romances centered on the love affair between Lancelot and Guenevere. It consists of an immense central core, the *Lancelot Proper*, introduced by *The History of the Holy Grail* and *The Story of Merlin* and concluded by *The Quest for the Holy Grail* and *The Death of Arthur*.

This volume brings together thirteen essays by noted scholars from the first symposium ever devoted exclusively to the Lancelot-Grail Cycle. Exploring the cycle's evolution across the literatures of medieval France, Italy, Spain, Catalonia, and England, the authors take a variety of approaches that highlight a broad range of cultural, social, historical, and political concerns and offer a comparative and interdisciplinary vision of this great romance.
