The Knights of Bushido: A History of Japanese War Crimes During World War II

Edward Frederick Langley Russell

The Knights of Bushido: A History of Japanese War Crimes During World War II Edward Frederick Langley Russell

The war crimes trials at Nuremberg and Tokyo meted out the Allies' official justice; Lord Russell of Liverpool's sensational bestselling books on the Axis' war crimes decided the public's opinion. *The Knights of Bushido*, Russell's shocking account of Japanese brutality in the Pacific in World War II, describes how the noble founding principles of the Empire of Japan were perverted by the military into a systematic campaign of torture, murder, starvation, rape, and destruction. Notorious incidents like the Nanking Massacre and the Bataan Death March emerge as merely part of a pattern of human rights abuses. Undoubtedly formidable soldiers, the Japanese were terrible conquerors. Their conduct in the Pacific is a harrowing example of the doctrine of mutual destruction carried to the extreme, and begs the question of what is acceptable—and unacceptable—in total war.
