## **Anthropological Research Framing for Archaeological Geophysics: Material Signatures of Past Human Behavior** Jason Randall Thompson

Anthropological Research Framing for Archaeological Geophysics: Material Signatures of Past Human Behavior initiates a dialogue with other archaeological and geophysical professionals to do so. Most archaeological applications of geophysics remain methodological and technical, devoted to gaining awareness of buried anthropogenic materials but not human behavior. By proposing the amelioration of communication gaps between traditional and geophysical archaeologists, Jason Randall Thompson foments dialogue and participates in bringing about new ways of thinking anthropologically about archaeological geophysics.
